

# CoalSMART 2016

February 18, 2016

At a time when there is a shortage of good news in coal markets, we explore the steps needed to hit the ground running as the recovery unfolds. How do we position ourselves to make the most of the various coal opportunities in Canada? How can we ensure we keep abreast of developments in coal technology? What are the key industry drivers that bear watching?

Join a diverse group of speakers and participants as we build on the success of CoalSMART 2015.

## PROGRAM TOPICS:

- Mining in NEBC Can be Successful!
- What Will it Take For a Comeback? Money, People, Plans, Permission – Panel Discussion
- Seismic Geophysics and Coal Exploration
- Selenium – A Case Study
- Deep Underground Coal Mining
- New Mine Permitting Regulations
- Technological Threats to Metallurgical Coal in Iron & Steel Making

Speakers TBA

## TRADESHOW

Similar to CoalSMART 2015, we will be hosting a small tradeshow. For details please contact Brett Warden: [bwarden@westerncoalsociety.ca](mailto:bwarden@westerncoalsociety.ca).

**CoalSMART 2016 Registration Fee is \$175.00 CAD.**  
Includes coffee, tea, snacks and lunch.
